Part No: RDY23C Locking Wheel Nut Remover Set

- The locking wheel nut remover is a specialist tool designed and manufactured in house by Dynomec for professional use to remove locking wheel nuts/bolts quickly and efficiently

Features

- Large selection of mouldable attachments with Peak Drive geometries offering superior grip
- Chisel Blades Incorporate multiple patented geometries
- Multiple sizes of protective shroud-suits small to large wheel recesses and reduces the risk of wheel damage, whilst aiding centralization.
- Screw in adaptors-offering more rigidity and stability
- Patented Multi-function Dual Strike Impact driver; isolate linear driving forces independent of rotational forces with the same tool, providing superior rigidity and energy transfer.
- Removable Stainless steel hand protection ring with foam cushion-offering full circle protection
- All parts engraved for clear identification and repeat ordering
- Once the C-Blade has been formed, the standard hexagon drive adaptors-allowing moulds to be used as temporary keys (once dressed)
